

January 23, 2010

To prospective home buyers and sellers,

We want to recommend Susan Weeks as a superior real estate agent. Several years ago, she helped us sell a house that we had listed with another agent and were unable to sell. A very short time after listing it with Susan, she had it sold for us. We received a good price for it and were so impressed with how smoothly the deal went through.

Therefore, when we started thinking about buying a different home for ourselves we naturally thought of Susan. We warned her that we would probably wear her out looking at different places, but she approached the task with energy and enthusiasm and never hesitated to show us whatever we wanted to look at. To my surprise, it did not take us that long to find the house we wanted. I attribute that to Susan's ability to listen to what our needs and wants were. She prescreened many of the houses to be sure they would fit our needs. Nevertheless, she was willing to take us to look if we thought one looked promising to us.

Susan represented us in a very professional manner when dealing with the seller's agent, and the purchase went smoothly. We are thrilled with our new home. It has all the important features we were looking for at a price we can afford. Susan was a joy to work with and was very helpful and informative as we were looking. When we are ready to sell our old house, we will be calling on Susan.

Sincerely,

Katherine and Jacob Showalter
